

LASCOL STICK

CUTTING PASTE

(index 4.1)

CUTTING PASTE FOR SEVERE MACHINING/ALL MATERIALS

**MANUAL
APPLICATION**

SCOPE

- Cutting paste for severe machining.
- To be used on all types of materials, ferrous and non-ferrous.
- Excellent results on stamping and threading operations.

APPLICATION OF LASCOL STICK

- Particularly suitable for sawing with circular,- band,- and standard saw blades.
- Further for thread cutting, tapping, centering, drilling, reaming
- Excellent for materials like steel, aluminium, copper, castings, zinc and its alloys.

CHARACTERISTICS OF LASCOL STICK

- Low tool wear.
- Long service life.
- Accurate fits and cuts.
- Low consumption.
- Low power requirement.
- The delivery form, (cardboard shell tube) allows an easy application of the product to the cut surface.

PERFECT FOR SAWING

Kin. viscosity at 40°C: -
Flash point: 250°C Density at 20 °C : 1 g/cm³

Storage temperature: 5 - 40°C
Storage time: 36 months

Packaging: 300 g cardboard shell tube
