

# LASCOL ARO 1

## CORROSION PROTECTION OIL

**INDOOR STORAGE 6  
MONTHS**

### SCOPE

- Corrosion protection oil for ferrous metals only.

### APPLICATION OF LASCOL ARO 1

- Preservation of semi-finished and finished products between working operations.
- The thin film also protects against contact corrosion and humidity, as well as final preservation of indoor storage.
- The product can be applied either by dipping, brushing or spraying.
- Ignition temperature > 200°C

### CHARACTERISTICS OF LASCOL ARO 1

- Very good wetting properties.
- **High spray water resistance.**
- Easy to degrease.
- High aging stability.
- Long storage capability without resinification.

**ASTM B117/DIN EN ISO 9227 24h=R-0, 48h= R 0-1, 120h= R-2**

**Viscosity at 40°C: 5mm<sup>2</sup>/sec Density at 20°C: 0,81g/ cm<sup>3</sup>**

**Flash point: 62°C**

Storage temperature: 5 - 40°C

Storage time: 36 months

Packaging: 5 l, 10 l and 25 l canisters and 60 l and 209 l drums
